

# Yosemite National Park Lodging Form

Western Region National Camping School

Curry Village Pavilion, Yosemite National Park, February 20-22, 2009

Curry Village lodging includes tent-cabins (no baths) and cabins (some w/ baths); as well as motel rooms, the "Stoneman Cottage," and the "Specialty Cabins"—all with baths. To assure adequate lodging for participants, the park has set aside for NCS, several of the heated tent-cabins; bathrooms and shower facilities are located nearby. Visit <http://www.yosemitepark.com/Accommodations.aspx> to learn more about lodging opportunities. All Curry Village accommodations are a short walk to the pavilion where classes are held, but with a vehicle you may elect to stay elsewhere in Yosemite Valley. Either way, you MUST arrive *on time* for EVERY NCS session.

Families may come along and enjoy the park, but must understand that NCS participants will be intensely involved in the course, and thus unable to care for children. A spouse (or caregiver) MUST be present throughout. Lodging for families must be booked through the park (see below). Participants attending alone (or with a spouse also attending training) may either book a heated tent-cabin through the region, or work through the park to secure upgraded accommodations at Curry or elsewhere in Yosemite Valley.

## Choose one of the two Lodging Opportunities:

**Participant Attending Alone** (if spouse is also to experience NCS training he or she must complete a separate lodging form)

**Participant to Book Lodging Through the Park** (Note: Unless you have a car you must stay at Curry Village)

To book lodging other than that described above (i.e. upgrade for participant alone, extended stay, or family members involved), participants must contact Yosemite National Park. Phone: (801) 559-4884. Website: <http://www.yosemitepark.com/Reservations.aspx>.

**Note: this form is required with NCS registration even if booking through the park.**

- Book *privately* (no mention of BSA) under participant's name so we can identify you through the park. Do not go through "Groups."
- DO NOT DELAY in booking independent lodging. This is Yosemite. It's popular. Lodging will book quickly; occupancy may reach 100%.
- Lodging MUST be secured within the national park at Yosemite Valley. No commuting. Work at NCS often lasts until after the park gates close.
